Work Experience

February 2025 – August 2026 : UX/UI Designer and Developer for Accenture:

- Presented applications by creating virtual walkthroughs through flow prototypes in Figma.
- Built the overall structure of some of the company's internal applications by creating their wireframes in Figma.
- Mapped out user motivations and possible actions within the applications using Figma creating user flow diagrams.
- Developed and deployed landing pages with HTML5, CSS, and JavaScript.
- Created personalized images for presentations using Canva and Photoshop.
- Customized and expanded applications.
- Documented the design development process for the applications.
- Used ServiceNow to submit requests of permissions to use applications and resolve technical issues.

July 2023 – May 2024 : UX/UI Designer and Developer for Softtek:

- Presented applications by creating virtual walkthroughs of them using Figma. (Flow Prototyping)
- Mapped out the logic and possible actions of the applications using Figma. (Flowchart)
- Developed and deployed landing pages with HTML5, CSS, and JavaScript.
- Created personalized images for presentations using Canva and Photoshop.
- Attended meetings to review design best practices and standards.
- Documented the development process of the designs.
- Customized and extended applications.
